

TO IMPROVE VENTILATION

Larger Cities Taking Up the Question.

Crusade for Pure Air in Street Cars, Theaters, Churches, Halls.

Inhabitants of Vilely Ventilated Holes an Easy Prey to Various Epidemics.

Special to The Tribune. WASHINGTON, D. C., July 18.—According to reports received here, the local boards of health of New York, Brooklyn, Boston, Chicago, St. Louis, Baltimore, Cincinnati, Cleveland and several other cities have taken up the matter of securing the proper ventilation of street cars, churches, halls and places of amusement where the public congregates in large numbers. The ventilation of these places, which comes within their purview as guardians of the municipal health and which can be regulated by local ordinances.

Ventilation and sanitation are so closely allied that these investigations, following the general and highly successful crusade against indiscriminate expectoration, which was conducted under the same auspices, have attracted much attention from the United States medical officers and health specialists, as well as from the general public.

Vilely Ventilated Holes.

In dealing with various epidemics and stamping out the major contagious diseases, such as yellow fever, bubonic plague, etc., the officers of the Marine hospital service found that continued residence in vilely ventilated holes such as existed in the underground passages in "Chinatown," San Francisco, lowered the vitality of the inhabitants and rendered them an easy prey to disease.

The breathing of vitiated air is also held directly responsible for the unusually crowded conditions of the steerage resulting therefrom, additional information on the subject of ventilation will be welcomed by the United States medical authorities.

When the experiments are concluded reports probably will be made to the United States Marine hospital service, which fills the place of a national board of health, receiving weekly reports from the local boards of all the large cities and compiling the information contained therein.

Exclusion of Light and Air.

The widespread movement against consumption has forcibly drawn public attention to the fact that the exclusion of light and air, or their admission in insufficient quantities, is primarily responsible for the growth of the disease, and the success attending the open-air treatment is undoubtedly responsible for the investigations now being made by the city boards of health for the purpose of securing the proper ventilation of public places, not only with a view of protecting healthy persons from breathing a germ-laden atmosphere, but to obviate the necessity of their inhaling vitiated air from within the life-giving qualities have been exhausted, with the attendant evil results.

Much good has already been accomplished in this direction by the municipal authorities in the tenement districts and in the public schools, where the ventilation attempted until now with other places of a public character.

Much Good May Result.

Consequently, the result of these experiments, especially in Brooklyn, New York, and Boston, will be awaited with much interest by the public in the hope of an amelioration of the physical discomforts resultant from improper ventilation of cars, places of amusement, churches, schools, etc., and by scientists because of the additional light which may be thrown on the general subject and on its relation to the public health.

Surgeon-General Wyman of the United States Marine hospital service is presiding officer of the organization of State and Territorial health officers, which meets annually under act of Congress, and in view of the general interest in this subject and its importance, he will probably appoint a special committee on ventilation from these officials.

CHICKENS CURED INSANITY.

Violent and Dangerous Until Placed in Charge of Poultry.

CLARINDA, Ia., July 17.—While in charge of the poultry industry which is a part of the Hospital for the Insane, a patient named William Miller recovered and has been discharged as cured. The patient was sent to the hospital about six years ago. He was violent and manifested homicidal and suicidal tendencies, having the hallucination that some person was continually shadowing him to kill him, and in consequence was regarded as one of the worst cases at Clarinda and as an incurable.

During one of his lucid intervals Miller was taken by an attendant to the big poultry house, where are kept a number of incubators. Miller begged leave to have charge of the work of looking after the incubators and was told that he could not be trusted and that it was feared that he might make his escape. The manager promised to work hard and not run away if permitted to remain with the chickens.

This happened three years ago and Miller became so attentive to the poultry and watched after his work so carefully that for nearly two years he has been the best chicken raiser of the hospital and now has been discharged as cured. Miller became interested in the chicken business Miller was the craziest man in the institution.

Should Call Turkey to Task.

LONDON, July 18.—The Standard's Tokyo correspondent, writing under date of July 17, says the Japanese Imperial, expresses the hope that Great Britain will see that Turkey lends Russia no assistance by allowing steamers of the volunteer fleet to pass the Dardanelles.

The Jiji Shimpo declares that Great Britain is bound, under the terms of the Anglo-Japanese alliance, to prevent such assistance being given.

Royal Bread is pure, every loaf bears our label with the crown. At all grocers and first-class restaurants.

STATE NEWS

CROWDS ATTRACTED BY BASKETBALL

Special to The Tribune.

PAYSON, July 18.—The Payson basketball team went to Nephi Saturday to play a match game with the Nephi team. A large crowd witnessed the game, which was an exciting one. The boys played for their expenses.

The team went to Mantu today to compete in the games at the Scandinavian reunion tomorrow.

The Payson Home Dramatic company will present the four-act drama, "The World Against Him," at Eureka on the 22nd.

The Payson Silver Band Pavilion company has arranged to run another popular excursion from the Tintic district on the 16th. It has been some time since one of these excursions was run, and a large crowd is expected here.

Clerk Peery of the School board has completed the school census for this year, and registered 746 pupils, 364 of whom were girls and 382 boys.

A match game of ball has been arranged to be played on the 24th between the married and single men of Payson for a purse.

About twenty-five accompanied the band to Castalia on its excursion last night, and a good time is reported.

Marcellus Smith, a promising young violinist of Payson, is in Salt Lake, having engaged to take instructions on the violin from Fred A. Pederson.

Samuel Stark and family, station agent of the P. & U. route at American Fork, is in Payson today.

Fred Ott, who has been on a mission in Germany the last three years, returned home.

A number attended the Old Folks' reunion at Spanish Fork Friday.

Fifteen men left here this week for Evanston, Wyo., to work on the Chambers estate ranches.

Daniel Stark, one of the oldest residents, who has been confined to his bed several weeks with kidney trouble, is able to be out.

The wife and daughter of William Pershah have arrived from Germany, and will make their home in Payson.

John Mardue, who came with his family from Eureka a few years ago, died last night. He was about 70 years of age, and leaves a wife and several children.

Mr. and Mrs. J. D. Wimmer are visiting in Payson with Sheriff and Mrs. David Barnett.

Mrs. C. W. Spalding has returned to Payson after an extended visit in Salt Lake with her parents, Mr. and Mrs. G. Wimmer, and later a trip to the world's fair at St. Louis.

John Kinder, who had his head badly split at one of the mines in Eureka last Wednesday, has not been brought down from the mining camp yet on account of his nervous condition.

HORSE SHOE OPERATIONS WILL BE RESUMED

Special to The Tribune.

MODENA, Utah, July 18.—G. Pray Smith of Pay returned from Salt Lake City yesterday accompanied by H. H. Hunt, president of the Mountain View Mining company, owning the Little Back and other properties at Fay.

It is claimed that some satisfactory arrangement was reached by Mr. Smith with A. W. McEune, by which he can resume operations in the Horse Shoe property.

C. C. Miller, superintendent of the Little Back mine at Fay, returned from Salt Lake City yesterday enroute to the mine. He received the returns from the 50,000 pounds of gold ore shipped to the smelter at Murray a few days ago and which was fully up to expectations. The shipment was expected to be 40,000 to 50,000 and exceeded that figure a trifle, much to Mr. Miller's satisfaction.

The news of Col. E. F. Frendenthal's appointment as manager of the Majestic company's properties in Beaver county is giving much satisfaction to his friends, who know his integrity. Col. Frendenthal can be relied upon to give the properties the Majestic the development they require.

JOHN CHINAMEN HAVE A FIGHT

Special to The Tribune.

PARK CITY, Utah, July 18.—Lee He, a Chinaman employed by the Keith-Kearns heating house, was arrested last night by Sheriff Blair upon a charge of highway robbery committed upon a fellow Chinaman, Lung Lung. It seems that Lee He and Lung Lung got into some difficulty over a debt and had several disputes at the mine. To prevent trouble the steward there discharged Lung, and things went well until last night, when Lee He came down from the mine for a short visit in town. When he came to Chinatown, the great Ling and demanded the money which he claims was due him. Lung refused and Lee, in a fit of anger, drew a knife and "knocked" him down and inflicted a cut over his eye.

When Lung was down Lee He took his money from him.

The robbery was made and this morning a bond of \$100 was furnished and Lee He released.

County Attorney Callis will be up from Coalville Tuesday and a preliminary hearing will be given the defendant.

Henry Spriggs was on the incoming train this morning.

The work of enlarging the building at the Keith-Kearns mill was begun yesterday. The new boilers are in place, and over these a building will be erected. G. F. Hitchcock has charge of the work.

J. W. N. Sondeckor, superintendent and manager of the Silver Bell mine in Thayne's canyon, with a party of Eastern capitalists, came to Park this morning and went up to inspect the property.

Henry Carey returned today from an extended Eastern visit.

The Brighton stage is now loaded to capacity every day with Salt Lake visitors to the popular summer resort.

\$50 LICENSE CAUSES POOLROOMS TO CLOSE

Special to The Tribune.

AMERICAN FORK, July 18.—All the pool and billiard halls in American Fork were closed yesterday, owing to the fact that the owners would not pay a license of \$50 per table. This license is a part of a new ordinance, which has just gone into effect. The number of tables affected is ten. This \$50 would greatly enhance the revenue of American Fork City.

The parents of George Elmore, who it was thought had been killed by an Idaho

southbound train, received a letter from him, saying that after sending his trunk he decided to stay for a short time longer.

Million H. Ingersoll came home last evening from Heber, where he spent the last two months in connection with his sheep interests.

Born-To the wife of F. M. Houston a baby girl.

Mr. and Mrs. Calvin Kelley, formerly of American Fork, came here last evening to spend ten days with Mr. Kelley's parents and other relatives.

The American Fork basketball players, who were defeated in Spanish Fork Friday afternoon by the Payson team, feel thankful for the hospitable treatment which they received at the hands of the home people.

Mrs. Thomas Thornton, formerly of American Fork and sister of Idaho, came down last evening to make a short stay with friends and relatives.

Owing to Pioneer fair falling on the regular Sunday apart for the home missionaries of the Alpine Mission, they have all been instructed to devote their addresses entirely to the occasion.

Mrs. William Armstrong came home last evening from a month's sojourn in Idaho.

Willard Shipley has in course of construction a modern dwelling house on First East North.

Mr. and Mrs. Charles H. Thomas of Salt Lake, who have been spending a vacation here with friends and relatives, returned home this evening.

ONTARIO NO. 3 SOON TO BE IN WORKING ORDER

Special to The Tribune.

PARK CITY, July 18.—Things at the Ontario No. 3 are again beginning to assume shape, and result from the great task of rebuilding the hoist. The hoisting works, galloways frame, engine and general machinery at July No. 2 were procured by the Ontario company, and are now being transferred to the Ontario ground.

In order to avoid the necessity of hauling the galloways frame twice and entailing unnecessary work, the frame is brought piece at a time and at once put in position at Ontario No. 3. The main object now before those having the work of reconstruction in hand is to get up steam at No. 3 and get the pumps to work in the water in the shaft, which is now filled to the 150-foot level. The galloways frame being in position the hoist will be put to work, and with the pumps, it will be but a short time until the shaft is again clear of water. By the end of the week it is expected that everything will be as it was before the fire.

Mr. and Mrs. G. F. Foreman returned to the Park yesterday from an extended Eastern tour. Mr. and Mrs. Foreman were married in Ogden last month, and since that time have been traveling and working.

Workmen are now employed in tearing down the old Marsac mill, citizens having purchased different portions of the building. The "Big House," as it is called, is the Ontario mine, both in timbering down in the mine and in the construction of the new hoist. The floor is a great deal safer when the mill is down and out of the way, as there is so much danger from fire when no watchman is employed.

Masked Robbers Hold Up Saloon

Waited for Place to Open, and Then Entered the Albany and Stole \$23.

Three masked men with formidable guns entered the Albany saloon at 12:15 yesterday morning and succeeded in holding up the place to the tune of \$23 and a gold watch worth \$10.

O. B. Cooper, the bartender, had just opened up and was counting the money in the till. Jim Welch was standing at the end of the bar when the three men entered. He tried to make a break for the door leading to the hotel which is over the saloon, when the smallest of the three robbers got the drop on him. He was then pulled into the center of the room and searched. Only \$5 belonging to the proprietor, James Hegney, was taken. The rest belonged to Mr. Cooper, as well as the gold watch and chain. The other man only took some small change.

The robbers did not attempt to be rough, although at one time both the victims feared they would suffer violence. The men differed in height, the tallest being about six feet. All were masked. During the time these were inside, it seems that a fourth was watching outside, as one of the nightwatchmen for the Rio Grande railroad declared that about that time he saw a man standing outside the saloon. Some time previous he had seen four men sitting together in the vicinity of the depot.

From the fact that the guns carried were small, it would seem that the men were novices at the game. "But you bet they didn't look very darned small at the time," says Jim Welch. They tried to get a ring from Mr. Cooper's finger, but could not get it off.

As soon as the hold-ups had gone the bartender woke up the proprietor, who fired his gun to attract the attention of the nightwatchman for the railroad. Soon after the patrol wagon came down from the police station, and Sgt. Edgington made investigations, but no trace of the robbers could be found.
